

****Please remember that any patient who needs to be rescheduled will need to be re-tested in the required time frame****

COVID TESTING FOR PEDIATRICS:

Facilities must test (specimen collected and result received) each patient within a 96-hour maximum before a scheduled procedure with a preoperative COVID-19 RT-PCR test and ensure COVID-19 negative status.

Virtua Voorhees Location now testing children as of 06/08/20 (Follow the attached instructions for VMG practices and NON-VMG Practices) -

AFC Urgent Cares - NOT TESTING CHILDREN UNDER 1 YEAR OF AGE

No Teledoc Apt needed: Covid Testing Mon-Fri 12:00pm-6:00pm
****Patient will need script from doctor (see attached instructions)****
pmpediatrics.com – Testing children 6mo and older

The Facilities listed above confirmed the testing of COVID-19 for pediatric patients. Please relay the following information to your patients to ensure timely testing.

1. The patient must call the telephone number and schedule the appointments themselves
 2. They must tell the testing center they are having their surgery at Summit Surgical Center
 3. Please make sure to give the facility Summits fax number to send the results
(f) 856-247-7874
- No script from the surgeon or facility is needed for the AFC or VIRTUA facilities
 - The facilities participate with almost all major insurance carriers (patients can speak with them if they have any insurance questions about the teledoc apt/testing)

PM PEDIATRICS

PM Pediatrics is now asking that all patients come for their testing with a prescription from the surgeon's office with the following information:

1. It would provide us the name of the doctor requesting this test.
2. It would provide us the name of the surgical center where the surgery is planned to occur.
3. It would provide us the fax number of the location you'd like to have the result sent to.
4. It would provide us a written document that we could scan into the chart that demonstrates who the referring physician is so we don't have to ask the parent for signed permission to send the results to you directly. This allows us to comply with HIPAA laws seamlessly.
5. We ask that the doctor write the date of the surgery on the prescription so that we know you need the results by a certain date, and we can watch out for that and ensure the results are sent to you in time for the surgery to occur as scheduled.

Thank you for your cooperation in trying to increase the proficiency of our covid-19 testing process.

SOP for VMG Outpatient Pre-Procedure COVID-19 Testing

1. Office scheduler schedules case.
 2. Scheduler informs patient that Virtua testing scheduler will be calling the patient to schedule outpatient pre-procedure COVID-19 testing and to expect the call. Testing will be done approximately 3 days prior to procedure.
 3. Office scheduler instructs patient to stay at home between date of testing and day of procedure and to limit contact with people at home.
 4. Office scheduler emails VMGRES@virtua.org for each case and provides the following information:
“Please schedule the following patient for outpatient pre-procedure COVID-19 testing”:
 - a. Patient name
 - b. Patient DOB
 - c. Patient MR Number
 - d. Surgeon name
 - e. Date of Surgery
 - f. Proposed procedure
 - g. Contact telephone number of patient/representative
 5. Patient will be contacted by Virtua testing scheduler to schedule test, preferably early in the day to allow for result to be processed within 72 hours. Testing scheduler asks patient to come to the testing center alone to reduce exposure to other people in the car while test is being performed.
 6. Testing will usually be resulted 24-48 hours after date of test and may be checked by surgeon/scheduler in Epic.
 7. If test is negative, patient will be notified by Virtua & may proceed with scheduled procedure. Patient will still be screened at time of admission for signs & symptoms of COVID-19.
 8. If test is positive, patient will be informed and advised by Virtua what to do. All positive patients should have their procedures postponed unless procedure is an emergency and must be done. In that case, physician must notify Virtua procedural area and do the procedure under positive COVID-19 protocol.
-

SOP for Non-VMG Office Outpatient Pre-Procedure COVID-19 Testing

1. Office scheduler schedules case.
2. Scheduler informs patient that Virtua testing scheduler will be calling the patient to schedule outpatient pre-procedure COVID-19 testing and to expect the call. Testing will be done approximately 3 days prior to procedure.
3. Office scheduler instructs patient to stay at home between date of testing and day of procedure and to limit contact with people at home.
4. Office scheduler calls (856) 325-3744 for each case and provides the following information to the testing scheduler:
 - a. Patient name
 - b. Patient DOB and
 - c. Patient MR Number
 - d. Surgeon name
 - e. Date of Surgery
 - f. Proposed procedure
 - g. Contact telephone number of patient/representative(If surgical scheduler gets a voicemail, leave the same information for the patient along with their own information and call back number in case the testing scheduler has any issues scheduling the patient for testing.)
5. Patient will be contacted by Virtua testing scheduler to schedule test, preferably early in the day to allow for result to be processed within 72 hours. Testing scheduler asks patient to come to the testing center alone to reduce exposure to other people in the car while test is being performed.
6. Testing will usually be resulted 24-48 hours after date of test and may be checked by surgeon/scheduler in Epic.
7. If test is negative, patient will be notified by Virtua & may proceed with scheduled procedure. Patient will still be screened at time of admission for signs & symptoms of COVID-19.
8. If test is positive, patient will be informed and advised by Virtua what to do. All positive patients should have their procedures postponed unless procedure is an emergency and must be done. In that case, physician must notify Virtua procedural area and do the procedure under positive COVID-19 protocol.

****NON VMG Practices – Due to the high volume of incoming calls, your call will go right to a voicemail. If you have questions/concerns leave that on that voicemail line as well and you will receive a call back****
