

## Patient Counseling for COVID

You/your child's surgery/procedure is scheduled for: \_\_\_\_\_

You/your child must have Pre-operative COVID testing on: \_\_\_\_\_

Following testing you/your child must:

- i. Continue to self-quarantine until the day of surgery;
- ii. Social distance and wear a mask in your place of self- quarantine (even while home with family);  
No masks at home for children 6 months to 4 years old. Recommend a mask at home for children age 5 to 17. Mask required at home for patients 18+.
- iii. Immediately inform the facility if there is any contact with suspected or confirmed case of COVID-19.
- iv. Immediately inform the facility if there is any contact with a person with symptoms consistent with COVID-19 and;
- v. Immediately inform the facility if the patient develops any symptoms consistent with COVID-19 while in self quarantine.

**\*\*Remember to continue to wear your mask until your arrival for surgery!**

When you/your child arrive at Summit Surgical for scheduled surgery

- i. You/your child will be screened for COVID-19 related symptoms
- ii. You/your child will be asked to sign a form to ensure that you/your child have:
  - a. Worn a mask since testing
  - b. Socially quarantined since testing
  - c. Socially distanced since testing
